

Statistics Test Things to Know

Topic	Text	Also see:
Scatterplots & Correlation	Section 1-5	& pgs 724 & 725
Mean, Median, Mode, Range	Section 1-6	& pgs 724 & 725
Simple Probability	Section 2-6	& pgs 726 & 727
Compound Probability	Section 2-7	& pgs 726 & 727
Percent of Change	Section 3-7	& pgs 728 & 729
Interpreting Graphs	2/27 Practice	& pgs 770 -- 775
Changing English → Math	3/5 Practice	

For Test Review Practice credit – you should prioritize your area(s) of weakness.

I'd suggest at least 4 problems from each of those "Also see:" pages, as listed below...

You could do some or all of:

Pg 771	1, 2, 3	pg 724	28–32	pg 726	36–52	pg 728	34–39
Pg 772	1, 2	pg 725	45–49	pg 727	65–69	pg 729	64, 65
Pg 773	1						
Pg 774	1–9						
Pg 775	1–4						

Do more on the areas you're not looking forward to on the test.

The test has some multiple choice, some not.

You'll have to be able to build a Stem&Leaf plot, and a Box&Whiskers plot.
